Unlock a New Standard of Excellence with Verita.

Our optimized cloud-based platform comes equipped with a range of time-saving features, including instant download of case data, tools, and resources.

Unique Noticing and Disbursement Expertise

We can assist with the preparation, production, and distribution of legal noticing and pleadings. Verita's subject matter experts support all varieties of specialty tax reporting, including complex wage claims disbursements, and IRS form preparation and reporting. When it comes to international disbursements, engaging Verita will give you the benefit of working with a team that fully understands the unique concerns surrounding international currency payments for chapter 7 and chapter 11 cases.

Easier and Cleaner Audits

Our intuitive platform reduces the additional burden of reviewing for potential audit issues by highlighting the changes from amendments for your review and action. Our team is here to further reduce the burden of Form 1, UST audits and TIR review, with the goal of each trustee coming away with a clean audit every time.
